

Amma - on Stupi

- The Stupi is a huge lamp of wisdom, which illumines the light of the Self in all. Through this, the Atmic light, which was ignored, is revealed.

- THE STUPI PULLS MY ENERGY AND FILLS the space. This is called cosmic energy. When Swami reveals who I am, all in the world will believe in me and these powers will begin to function. *This power will immediately go to the aid of anyone who sincerely calls on God.* It will help in whatever way it is needed, relieving suffering. Whatever name, whatever form of God is called on, the energy will protect them. There is no difference of cast and religion. Whatever name and form is called on, help will come.

- I AM GOD'S SHAKTHI. GOD'S TASK is taking place here. Mukthi Nilayam and I are only for Avatar's mission. Chaitanya, pure consciousness is going through the Stupi and transforming the world. It prevents Karmic law from functioning. My feelings of gratitude stop Karmic law from acting. Due to my feelings of gratitude, I ask for world's liberation. The power of my penance balances my karmic debt, and stops Karmic law from working.

- All those who see the Stupi, will be blessed with the awakening of the Kundalini.

- THE STUPI IS MY KUNDALINI. It absorbs my feelings and like a transmitter sends them out. These feelings spread everywhere and transform the world. When a jeeva transcends the causal body, he takes on the space, the whole universe as a body. The sky blue sari and stars on it symbolize the jeeva. A jeeva called Vasantha transcended the causal body through Sadhana and took on the cosmic body. That is why this Stupi is the cosmic kundalini. I am the cause for world liberation. I desired to make the entire world Vasanthamayam. Vasantha has become the cosmos. I am the one doing Yagna. The samiths I put in the Yagna, are my feelings. I am offering them to myself, who is the form of the Stupi.

- Swami and I will become one life, one body on the day of the Stupi inauguration. On that day my body will be totally offered. Swami said that Union of Life means the existence of only one life in one body. Regarding this union, Swami said, "This will become pranic energy and enter each one to create Sathya Yuga. You came due to your compassion for the jeeva and you also brought Me down".

- The Stupi is veritable a Siva Shakti Linga. The base of the Linga represents Shakti, the feminine active aspect of God. The Linga represents the Siva, the masculine resting aspect of God. Shakti supports Siva to stand. Swami says it is in this way I am holding Him on Earth.
