

How can we help Swami !!!

Dear Devotees,

Swami has undergone so much suffering over the last few days and has been admitted to the hospital. I have also not been well for the last few months. Many of those who are here and who come here have seen my suffering directly. Now Swami is in the hospital and many people are asking what they can do. All in the world are chanting many different mantras. The minds and thoughts of all are focused on Swami.

*Swami said that there would be much destruction in the world from last Christmas onwards. I have written about this in my book. It happened and is still happening; there are disasters, destruction and unrest in many places. It is good if all minds focus on God at these times. Swami is also suffering now. It is due to the karmas of all in the world that Nature gets angry. Each and everyone in this world is responsible for this. For the last 85 years, Swami has been trying to change mankind for this reason. All in the world must change. **Let all of us make a vow to change at least one bad quality in ourselves.***

I was crying more and called to all devas, gods and goddesses to do something. Swami and I have taken the 580 crores of karmas on our body, the sufferings of all those births in this one birth. Has any Avatar ever suffered in this way in their body? It is only happening in this Avataric period. It is for this reason the Avatar does not descend in Kali Yuga. Have we ever heard of Rama being admitted to the hospital in Ayodhya? Was Krishna admitted to the hospital and had an operation in Mathura? Why has this Avatar had to suffer so much? Hip operation, eye operation, fracture to His hand! How much suffering He has had to undergo? He is the one who cures the diseases of others. How many operations He has performed on His devotees. He is God! He can do anything! Yet, He is suffering in the body! Why a heart operation! No, no!

Oh people of the world, you contemplate! It is for your karmas that God is suffering in the body.

People all over the world are chanting different mantras. But, **I am asking each one of you to make a strong decision to take leave of one bad habit.**

It is this alone that will cure Swami. The Avatar has only come to this Earth to transform it. He has come here to redeem you from the cycle of birth and death. If you want to help Him, then do this. Contemplate and think how much Swami has done for all; how all have benefited.

Now is the time to show your gratitude and change one of your bad qualities.

Once Swami performed an operation materializing all instruments by merely waving His hands in the air. How many people has He cured? If He thinks, can He not cure Himself? Why has He not done so? It is because I have asked Him to bestow Universal Liberation. This is something that has never been given before and the Avatar does not bestow. Now for the sake of world karmas, He has had to have an operation and a pacemaker. It is due to your karmas that you make His heart 'pieces of peace'. So many doctors have come to examine and look after Swami. All think that He needs an operation. Can this disease be cured by doctors? No! This is world karmas.

For the last few days, the entire world is praying one pointedly; all are focusing their minds on Swami. Through this, some pollution may decrease in the world. This is the only thing we can do for Swami. We are the reason for His suffering. For Swami, I am praying to all of you, to everyone with tears in my eyes. Oh worldly people please change yourself! Enough of Swami's suffering. You please cure Him. This Avatar has descended here for your sake and your suffering. All of you please show compassion to me and please decrease Swami's suffering. God is the life breath of the world. He is the life breath for all. Yet, now God is given oxygen!

How strange! Please, please do this.

Jai Sai Ram,
Vasantha Sai
